Red Coat Roundup Set

November 14, 15, and 16 are the dates set for the Fifth Annual Red Coat Roundup. The event sponsored by the Grayling Regional Chamber of Commerce has drawn hundreds of hunters and visitors into the Grayling area for the festive occasion.

Beginning Friday evening, November 13th, the Chamber Mobile Office will be located in downtown Grayling, and will remain in the downtown location until Saturday night. Hunters' registration will be made, hunting information, accommodation information, and county maps will be available for the visiting hunters.

On November 15th and 16th

the mobile office will be in the Grayling Municipal Park at the Deer Pole. Prizes will be awarded for the first 10 deer on the pole, the largest racked buck, heaviest deer, youngest hunter bringing in a deer, and the first woman bringing in a buck.

Red Coat Roundup buttons are being sold again this year and will be available to everyone from the mobile office and downtown street sales. The Red Coat Roundup buttons are the official registration insignia for anyone entering the deer contest for prizes.

The mobile unit is being donated by William O. Sorenson of

Grayling. WGRY will also be broadcasting from the unit during the Red Coat Roundup Days. Organizations planning special dinners are the Grayling Sportsman's Club with a Fish Fry on November 13th and the Grayling Voiture 1495, 40 et 8 at the American Legion Hall on November 21st. The American Business Women's Association, Grayling Chapter, will serve coffee and doughnuts at the Deer Pole all day November 15th.

All hunters will be welcome to put their deer on the pole, and chain and lock will be used again as a security precaution against theft.

Election Bulletin

For the third time this year, Grayling residents turned down a City Income Tax Proposal — this time quite emphatically — as they went to the polls Tuesday in the general election, and turned down the proposition, 322 to 248.

Previously the tax was defeated 212 to 178 in February, and again in August by a count of only 176 to 171.

County voters, for the first time, elected commissioners to represent seven districts in the city and county, instead of an at-large vote two years ago.

In District One, George Duckley fought off the challenge of sticker candidate, Dean Welch, by a 128 to 105 count.

Three other districts had contests for the vacant seats on the board.

Voters gave the nod to Earl Longworth (R) 182 over John Horton (D) 166 in District Two. Bernard Maurer (D) defeated Hal Walker (R) 222-211, with Howard Taylor receiving three writs, in District Three. Fred Kauffman (R) was leading Edith Paul (D) 105 to 46, in District Seven, without Beaver Creek reporting.

At Westerville in District Four, Leonard Knibbs, District Five and Lawrence Dug, District Six were without opposition and will serve their respective districts on the new board.

On the questions of the three state propositions, county voters east their ballots as follows:

Proposition One: 916 Yes, 1059 No; Proposition Two: 703 Yes, 1019 No; Proposition Three: 1129 Yes, 630 No.

On the state side, county voters favored William Milliken over Sander Levin for Governor; Emil Lockwood over Richard Austin for Secretary of State and Frank Kelly as Attorney General over William Farr.

Senator Philip Hart was the choice over challenger Lenore Romney for Michigan State Senator.

10th District Congressman, Elford Cederberg was the counties choice over Gerald Parent for the office in Washington.

For State Senator, 36th District, local voters favored incumbent John Toeppe over his Democratic rival Erika Belmore.

Louis Cramton (R) received the nod here over Thomas Byron (D) for the office of State Representative, 103rd District, which is being vacated this year by the resignation of present Representative, Nelson Tisdale.

These are unofficial tallies, subject to the board of canvassers report. Beaver Creek Township had not reported at press time.

Undeclared Season For JV Squad

By Jimmy McClain

The Grayling JV's wound up with an undefeated season as they took the measure of the little Onaway Cardinals 16-0 in their final game Oct. 27.

Both teams played outstanding defensive games.

Both teams were held scoreless for the entire first half. Onaway came close to scoring but, Grayling put out a great defensive effort to keep the Cardinals out of their end zone.

In the second half, Dave White, JV running back scored two TD's. Both conversions were good with Bob Miller scoring the first on a pass play, and Chris Duckley the second on a run around left end.

Grayling hit the end zone for two other TD's, only to have them called back due to penalties.

The entire defensive squad played an outstanding game, and were led in their shutout by Andy Trevino, Joe Shepler, Mike Hoffman and Brad Hatfield.

The Viking defensive crew turned the ball over to the offense on the 5 yard line, when Onaway had a fourth down punting situation. Brad Hatfield broke through to block the kick, which set up White's second TD.

Coach Howard Lehti's undefeated squad consisted of the following players:

Bruce King, Bob Miller, Steve Persing, Jim Alef, Brad Hatfield, Chris Duckley, Joe Shepler, Mike Hoffman, Kevin Zimmerman, Andy Trevino, Bill Horning, Dave White, Dan McClain, Butch Kozicki, Jim Bobenmoyer, Ed Harwood, Roger Partridge, Don Latusek, Pat Kucharek, Dan Moore, Tom Moss, Tom Vajda, Mark Doty, Wayne Westervelt and Wade Gee.

Faculty vs. Varsity Club

On Wednesday night, Nov. 4, at 7:00 p.m. the faculty of G.H.S. will play the varsity club. It is hoped that many people will attend this game, as it could be the game of the year.

A "thank you" goes out to all those who supported and attended the powder puff football games. The juniors were victorious as they defeated the sophomore girls 32-0.

The activities were very successful in raising money for the new bleachers at the football field.

Choir to Present 'Mame'

Word was received late last week that The Grayling High School Concert Choir has signed a contract with Tams-Witmark Music Library of New York for their production of the Broadway Musical smash hit "Mame." The local production of "Mame" will be presented to the public on Friday and Saturday, May 14 and 15.

"Mame" is a Broadway Musical based on the novel "Auntie Mame" by Patrick Dennis and

the play of the same name by Jerome Lawrence and Robert E. Lee. The music and lyrics for the musical adaption of "Mame" was written by Jerry Herman, who also wrote the music for "Hello Dolly."

As you can see, the choir has already started to make plans for the Spring Musical. Have you made any plans yet? Have you decided which night you will go and set that night aside. Better do it now before something else comes up.

Friday, Nov. 6 is D-Day. Two NLML undefeated squads, will meet here this Friday evening, when the Grayling Vikings (7-0) entertain the Kalkaska Ironmen (7-0) in a clash for the league championship.

This is the final game of the season, and to the winner will go the spoils.

Both squads turned in impressive victories in their tune-up games last Friday, as the Vikings bombed the Kalkaska Blue Blazers 34-0, while the Ironmen blitzed the East Jordan Red Devils 36-8.

As an added attraction, Friday evening, seniors on the Viking squad and their fathers will be introduced prior to the start of the game.

The game will feature two outstanding defensive squads, as each team has allowed only 20 points to be scored against them this season. Offensively, the Ironmen holds the edge as they have scored 234 points to 176 by the Vikings.

Tim Mead, Viking quarterback, tallied the first Grayling TD in the first quarter when a Mead pass was intercepted in the end zone when the Vikings had first and goal on the 2 yard line.

In the second quarter, the Vikings scored three times as Mead hit the end zone from 3 yards out, Murray Babbitt scored from the 3, with Jerry King picking up the conversion. Terry Fitzpatrick went in from the 8 after a blocked punt was recovered by Jim Corlew.

Grayling's final TD came in the third quarter when Ken Bindschattel was shifted from left guard position to the fullback spot, and plunged for the TD from 3 yards out.

This was the fifth time this season the defensive squad has turned in a shutout. They have allowed only three touchdowns and one conversion to be scored against them.

Doug Legg, 6-1, 195 pound, Viking tackle, and a prime candidate for All-State honors, led the Viking defense against the Blue Blazers as he accounted for 18 tackles for the highest single game effort by a Viking.

Murray Babbitt led the rushing attack as he picked up 98 yards in 19 carries, all in the first half. Fitzpatrick carried 5 times for 56 yards, King had 49 on 10 carries and Mert Theaker 35 on 8 tries. The Vikings rolled up 221 yards rushing.

Fifteen seniors will suit up for their final game as a Viking. They include: Tim Mead, Peter Johnson, Jerry King, John Peters, Tom Gates, Mert Theaker, Murray Babbitt, Clark Wilcox, Ken Bindschattel, Arnold Gilman, Jim Corlew, Doug Legg, Ron Shepler, Leonard Leininger, Brian Duckley.

Letters To The Editor

Mr. Whitey Madsen
Crawford County Avalanche

Dear Whitey,

It has been a little over a year since my urgent phone call to you. Remember how upset I was? I asked you if you had time to break away for a few minutes from your busy Tuesday afternoon schedule. We met and left, not saying a word, but you knew by my actions and had worked with me on a few projects that my mind was working towards a goal. Until that day my heart, mind and soul was given to our community; to better our town and its greater Crawford County that engulfs us all. What we saw was a blow to 16,000 fishermen, the City of Grayling, its residents, and 15 fine men that helped put up the 12' x 40' Trout Unlimited sign. This sign had a 9' x 16' AuSable Square Tailed Trout painted on it that was destroyed by a handful of young men.

The Crawford County Avalanche took a picture and printed it along with an article stating that a group of interested men were giving a \$100 award leading to the arrest of persons who degraded "our" sign. A telephone number was given to call if there were any witnesses to the destruction.

About a week later, I received a call from a lady who said she knew who destroyed the sign. Our conversation only lasted a few seconds, but during that time she named three men from Grayling who disfigured the Trout Unlimited sign. At this time she did not divulge her name nor the individual's name who saw the damage being done.

On a Sunday morning, about two weeks later, I passed the sign that signified the birthplace of "Trout Unlimited." Whitey, you know and all your readers know what happened. Someone had poured bright red paint from one end of the sign to the other.

The actual cost of the sign was \$1440.00 for materials and labor of Ken's Signs. Taking it down and repainting the sign would have cost another \$1200.00. Actually, a \$2440.00 sign was destroyed.

On this same Sunday, I received a second phone call from the same woman who called the first time. I was told that young men who destroyed the sign had red paint on their hands, car, and on their shoes. My goal was in sight. There was a witness who would go to the Prosecuting Attorney's office and make a statement to the facts. He did this in my presence. The men were found and questioned by the Crawford County Sheriff's Department. The Department noticed paint on their hands, shoes and on the car. The report was filed, but the signed warrants were never issued. Why? I heard that the witness was not telling the truth. Telling an individual that he is lying is rather serious. This gentleman agreed to take a lie-detector test at the Traverse City State Police Post. The result — true facts. On September 29, 1970, word from a friend stated that one of the accused was not involved with the sign because he too was asked to take a test. To my pleasure, he passed the lie-detector test. No one should ever be accused or convicted for something he did not commit.

There are a few questions I would like to ask at this time.

Did the other two men take a lie-detector test?

2. If not, why?

3. Why is the Prosecuting Attorney sitting on these warrants? It should be up to the judge to find them guilty or not guilty.

Whitey, what would the City of Grayling do if one of the approach signs on I-75 was damaged like the Trout Unlimited sign — without even having a witness who took a lie-detector test?

Always for our City,
Tom Graham

Now Wash
That Window!

By Jim Fitzgerald

One way to leave your wife speechless is to rob her of the stuff from which she fashions her most frequent speeches. (One thing about reading this column, you don't have to read Ann Landers.)

For 15 years, my wife Pat made the same speech about the picture window in our family room.

"That window has never been washed on the outside and your mother is coming this weekend," she would say.

Or: "That window has never been washed on the outside and it's Christmas."

Or: "That window has never been washed on the outside and the sun is shining."

And on and on and on.

My first suggestion, made about 1955, was that she go outside and wash herself. But Pat said there was a huge storm window that had to be taken down before the window could be washed on the outside. And no woman could lift that storm window.

Five years later I happened to be passing through the backyard on my way to the poolroom. I looked at the storm window and noticed it was screwed to the house with those funny screws that have x's on their heads, instead of —s.

The next time I saw Pat I explained to her that our screwdriver was for — screws, not x's. She tried to tell me it didn't make any difference but I knew better. "If God had wanted — screwdrivers to go into x screws He wouldn't have made x screwdrivers," I said.

The next Christmas my rotten kids gave me a x screwdriver.

Ten years later I happened again to be in the backyard, having taken a wrong turn on my way to Detroit. My wife threw the x screwdriver out the back door and then quickly locked it. She had already locked the front and side doors, I found out.

So I graciously took down the lousy storm window and hollered at Pat to bring out her cruddy soap and water and wash the stupid glass before I stuck my gracious foot through it.

So the task was finally accomplished. And I have never seen my wife so happy.

That night we cancelled plans to fly to Monte Carlo to dine with the Rainiers. Instead, we sat home and looked out the window.

Two weeks later, Pat was still pulling strangers in off the street. "Look at the window," she told them.

The paperboy thinks she is nuts. She wouldn't pay him until he finally guessed "what looks different in this room?"

When the weather is nice, she watches TV from outside, sitting on top a stepladder, a peeping Pat. The kids communicate with her by semaphore, closing and opening the drapes.

But the biggest change in our domestic life is the conversation gap. Now that she can no longer complain about that dirty window, she can't think of a thing to say to me.

Which leaves me plenty of time to ponder about how delicious it would have been if, after 15 years, it had turned out the dirt was on the inside.

But Onward and Upward.

Grayling, Michigan—Thursday, November 5, 1970

A Day Of Purpose

Observance of Veterans Day, on November 11 in the year 1970, marks the ending of World War I more than 50 years ago.

History reveals that 50 years ago, just as 200 years ago, or even in the days of World War II, only a little more than a generation ago, there was an overwhelming dedication and belief in the United States. Patriotism was not something to be ashamed of or submerged in cynicism — nor were liberty, the principles of self-government or the American economic and political system. Strong convictions commanded respect, and no one doubted our destiny as a nation.

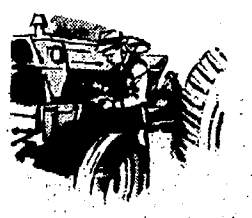

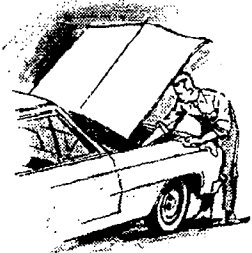

Now, as we approach another Armistice Day — or Veterans Day — the in-thing, among many of the discontented, is to shun convictions or allegiance to any cause or principle. Pursuit of such a philosophy to its logical conclusion would be the abandonment of observation of all milestones in the history of the nation or in the history of mankind, for that matter. If nothing matters, there is nothing to observe; and, if there is nothing to observe or believe in, what is left but a vacuum where once there was a great nation and a great people.

Just as on other days that are important in the record of the United States, U.S. citizens turn out in tribute to Veterans Day, because they wish to reaffirm those beliefs that make a nation great and for which many of their fellowmen have given up their lives. November 11, in short, is a day of purpose.

TEMPE, ARIZ., NEWS: "A businessman has a plaque on a wall above his desk which reads as follows: 'My competitors do more for me than my friends do; my friends are too polite to point out my weaknesses, but my competitors go to great expense to advertise them. My competitors would take my business away from me, if they could; this keeps me alert to hold what I have. If I had no competitors, I would be lazy, incompetent, inattentive; I need the discipline they enforce upon me. I salute my competitors; they have been good to me. God bless them all!'"

To Whom It May Concern:

In the recent months a police officer was hospitalized. This was due to a physical beating inflicted on him in the line of duty, that is invested on him by the tax payers.

In this case the police officer was in the hospital for four days and was off work for six days. As for the six days the other officers had to work overtime, (our tax money again.) This officer has a family and a lot of hardship was brought on this family due to this incident.

The police officers job is to protect your property and your rights. When you break the law, the police officer has a job to do also.

In this case the penalty for assault on a police officer in the line of duty is a maximum of two years in prison or \$1,000.00 fine or both. This person received \$100.00 fine, \$100.00 cost, 3 weekends in jail and 1 year probation. This isn't even a down payment of what I had to go through or my family.

The people of this county should wake up to the fact. How well is your property or rights protected by these day courts? Also what happens if all law and law officers were taken away from you, the tax payers and supporters of this county.

If we don't get law back into our society we are not going to have any society to live in.

I am a taxpayer and also in a position to see more than the other taxpayers do that go to bed at night and leaves his property in our hands.

A police officer is only as good as the people want him to be. So!!!

Thank you for taking the time to read this note of little concern until it happens to you.

Dear Mr. Madsen,
In reference to the letter dated September 14, 1970 from Mr. Joseph V. Wilcox of Albion, Mich. Time Magazine recently

Policyholder Questions Answered by the Health Insurance Institute, 277 Park Ave., N. Y., N. Y., 10017

Q. I have a major medical insurance policy for me and my family. But I know it wouldn't cover all medical expenses if something serious happened. Is there any type of policy that would provide some additional income to help us pay the bills?

A. Hospital indemnity policies or hospital income insurance may be what you are looking for. These policies provide daily, weekly or monthly income to the policyholder during periods of hospitalization, and in some cases, during after-hospital convalescence. Benefits can be used by the policyholder to cover medical expenses not paid for by his other health insurance plans or to meet household bills that continue during a period of disability.

Or you may want to consult with your insurance man to talk about raising the maximum amount of your major medical insurance. Maximum amounts now go up to \$10,000, \$20,000 or higher. Or you may be able to get an additional major medical policy to add to your present coverage. This is known as "excess major medical" and is now available in some states.

In any case you'll want to discuss the possibilities with your insurance man before you decide what type of additional health insurance you want to buy.

Q. In the process of moving I seem to have misplaced our family's health insurance policy. What should I do to get a new one?

A. You'll want to contact your agent or the company that issued the policy to you. Either will assume the responsibility for providing a duplicate policy. A lost policy is easily replaced but it should be done as promptly as possible. Without the policy, there could be a delay in payment if you make a claim.

Ban On Spiro Agnew Is Lifted

by Richard L. Milliman

It's been almost a year now since I took the veil, as a columnist, to forego Spiro T. Agnew.

Since I offered that promise to stay away from Spiro, I have steadfastly complied with my own directive. Regular readers of this column—who include in their number, my mother-in-law, an ambitious copy boy, and two members of the John Birch Society, who read my offerings for disparate reasons—will attest that since I took the voluntary pledge, the name of Spiro T. Agnew has not appeared in this space.

I might say that the Vice President has suffered no apparent loss of influence because of this lack of exposure; nor have I been deluged by a single card or letter urging the ban on Agnew be lifted.

Nevertheless, the time has come to speak out once more. This time, I rise to verbally smite a nationally syndicated columnist who has taken our Vice President to task.

In a recent column, a couple of gentlemen named Roscoe and Geoffrey Drummond have accused Mr. Agnew of overstepping his bounds.

The Drummonds write that Mr. Agnew "has exceeded his mandate as vice president and has rendered a serious disservice to his President and to his country" by what they call "inaccurate and extravagant criticism of the report of the

President's Commission on Campus Unrest, headed by former Gov. William Scranton."

The Drummond thesis is that Mr. Nixon was out of the country and did not have a chance to establish his formal position on the Scranton report before Mr. Agnew jumped the gun and started spouting the Agnew line, which in the absence of a Nixon line, thus became the formal Administration line. And unjustly and unfairly, we are led to believe.

"For a Vice President to underperform is understandable," write the Drummonds. "For a Vice President to overperform by acting to make his voice the voice of the President before the President has spoken is improper, imprudent and dangerous."

In my view, the Drummonds are correct in one way. One role of the Vice President is to speak for the Administration, especially in areas and in ways where it would be better for the Vice President than the President to speak. In most respects, this has been exactly what Mr. Agnew has been doing for the past many months.

Why then should the Drummond thesis apply now, to the Scranton report, that Agnew is out of line?

I would suspect instead that the Agnew view of

the Scranton report was a deliberate Administration tactic, rather than an Agnew overstepping of the boundaries of his role as alter-spokesman for the Nixon Presidency.

Write the Drummonds of Agnew's timing: "There had been no opportunity for the President to decide what position he wanted to take. So Agnew took it for him."

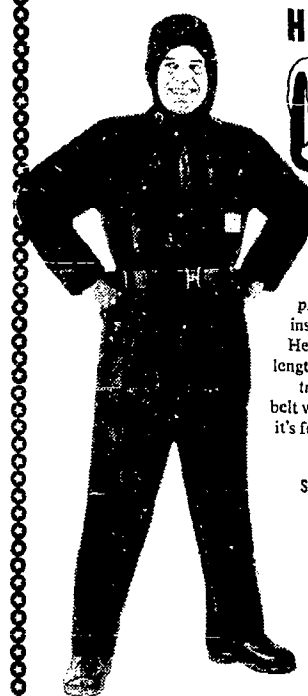

I for one find this difficult to swallow. Instead, I would guess that if Nixon got some flack for Agnew's stance on the campus report, then this gives Mr. Nixon a chance to point the finger at Mr. Agnew instead of at himself. Indeed, this is one of the advantages of having a Vice President who can verbalize convincingly.

Another tactic of various governmental administrations is to use a influential columnist or news sources to float trial balloons. The Drummond attack on Mr. Agnew may well be an example of yet another fascinating political tactic.

In any event, I'm with Spiro Agnew in this caper. And those among my readers who collect incidental trivia may want to clip this column and have it mounted, because it may be one of the few when they'll find me marching shoulder to shoulder with the gentleman from Maryland.

SUNDAY'S SERMON

"Winning"
Too many of us are slaves to the idea of "winning." We will do anything to avoid a "second-best" finish. The high school coach may be a fine teacher of history, or mathematics, but his tenure at any school will be determined by the achievements of his team in each game they play. Professional sports, in any category, is a paying proposition only so long as the local team is a winner. Rare is the community that will support a "loser."

We should strive to appreciate the value of "competitiveness." Don't throw the idea of winning away. Winning is a reason for effort, a reward for effort. We need, however, to recognize that winning, or lack of victory, in either event, is not the sum total of value in any game, in any effort.

Defeat should be criticized only when it was achieved through a lack of effort.

Unemployment Checks Extended

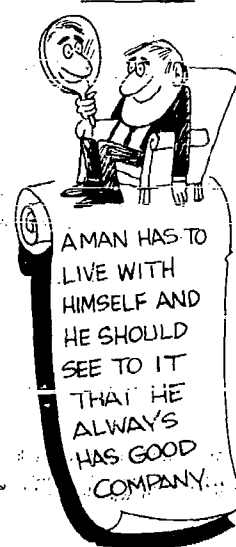

William R. Ford, Director of the Michigan Employment Security Commission (MESC), announced last week that thousands of jobless persons throughout Michigan who have used up their unemployment benefits this year may now be eligible to collect up to 13 additional unemployment checks under Michigan's new Extended Benefit program which began October 11, 1970.

Everyone whose unemployment checks have run out is not automatically eligible to receive these additional unemployment insurance checks. To qualify, the individual must be out of work; his benefit year must end after October 10, 1970; and he must meet the same requirements as apply to regular unemployment benefits, such as being able to work, and available and looking for work.

"In most cases, if an applicant qualifies to receive these additional checks, the first one will be ready within a week after applying."

The Federal legislation which makes possible the payment of extra unemployment checks was signed by President Nixon August 10, 1970. Governor Milliken on August 27, 1970, signed enabling legislation giving Michigan a headstart over other states in the payment of extended benefits.

Cost of the extended unemployment insurance program will be shared jointly by the Federal Government and the state. Michigan's share will be paid from the State Unemployment Compensation Fund. Individual employer rating accounts will not be charged for any part of the program.

Roscommon Youth's Essay Wins Harry Aldrich Scholarship

A Roscommon youth, Kurt Ostling, 17, has been awarded the 1970 Harry L. Aldrich Memorial Scholarship. The announcement was made at the 60th annual convention of the East Michigan Tourist Association in Frankenmuth, October 22.

The Gerrish-Higgins high school graduate is the son of Mr. and Mrs. Ralph Ostling of Roscommon. He is a freshman at Kalamazoo College.

The scholarship grant of \$400 is made annually through the Harry L. Aldrich Foundation to the applicant who in the opinion of the trustees has the best basic understanding of the relationship between conservation and tourism. Part of the requirements for consideration is an essay on the importance of tourism-conservation to the state of Michigan.

In his essay, young Ostling pointed out that we must heed the warnings of ecological destruction which have been sown by past generations, or there may not be anything to sell tourists.

"Survival must precede recreation," Ostling said. "Those who leave the cities to get away from 'creeping ills' must realize that our backyard and our trail road is their backyard and their trail road. They must realize personal discipline is necessary for our very survival."

James H. Hall, Executive Vice President of the East Michigan Tourist Association said, "Ostling's essay exhibited an extraordinary understanding of the working relationships between Michigan's tourism industry and natural resources management."

The Harry L. Aldrich Memorial Foundation was established in 1966 in cooperation with members of EMTA. Aldrich is best remembered as Region II Chief of the Department of Natural Resources. His understanding of the relationships between use and management of natural resources at the local level won him wide respect among area businessmen.

You Can Help Fight Pollution

By Willard Bosserman
County Extension Director

Too often we tend to look to government to solve large problems. Most large problems are caused by little contributions by each one of us.

Pollution is a complication of all that each of us contribute to the whole. If each of us would do a little, we could whip part of the problem.

I will pass on to you some little hints that I gleaned from the Michigan Natural Resources magazine who got them from ENACT located at Ann Arbor. ENACT is short for Environmental action for Survival.

Preventing air pollution. Do not burn leaves or trash. Instead start your own compost pile. An article in the July-August issue of Michigan Natural Resources tells how to make a compost pile using garbage. Your neighbors won't complain if you keep it covered with soil.

When buying a new car, study details of the various exhaust control devices on various makes of automobiles. Make the dealers conscious of over air pollution.

Does your community have an ordinance against burning rubbish? If it does not, you have an opportunity to do something about it.

One large problem of solid waste is enormous bulk. Anything you can do to reduce bulk helps. Flattened tin cans is one answer. Some cities require it before they will pick up the trash.

The Michigan Department of State Highways estimates it costs 32c in trucks, time, and manpower for each piece of litter removed from our roadways. Don't be a litter bug, especially if you are concerned with the taxes you pay. You could look on the bright side, litter does make work for lots of people. Of course it is your tax dollar that pays them. I guess when you are three sheets to the wind you don't worry about taxes. You let the bottles fly.

You can control noise pollution around your home by growing trees and shrubs. They screen out much of the noise. They at least soften noise. They also act as an air conditioner. The transpiration of the leaves of trees and grass lower the hot summer temperature. They soften the scene as well. Plant some trees and shrubs yet this fall.

The basis of our pollution problem is too many people using too many resources.

"Finally, it must be said that our environment is a very tolerant place to live. If given the chance, it cleans our waters, provides us with abundant fresh air, and grows huge quantities of food. It grows refreshing supplies of wildlife and greenery. It carries us through space on a small friendly planet, surrounded by an envelope of moist air, and it attends to all our needs. All it asks in return is the chance to do its thing. Let's give our earth the chance. We won't regret the effort."

New York to Frisco On A Snowmobile

Snowmobile races, rallies, and safaris rate high as attention getters for the sport, but the top story of the year, publicized through TV, newspaper and a magazine media is the New York City to San Francisco cross country run of a standard Chaparral Executive snowmobile.

Driven by Tom Shiftlet, an ex-olympic bobsledder, the Chaparral with Gates polyTrac, Apex gear box and Salsbury clutch wheeled along at 55 to 60 miles per hour, averaging almost 400 miles per day. To win state and federal highway department approval, additions to the machine consisted of brakes, brake lights, head lights, horn, turn signals and conforming exhaust muffler. The Skat-Track wheels and front end assembly replaced the skis. For safety, Shiftlet and the Chaparral were accompanied by a service car.

An unexpected exceptionally successful side trip to Pikes Peak put Chaparral as the first snowmobile and Shiftlet as the first snowmobile driver to reach the 14,110 foot summit of the world's most hazardous and grueling race course. In recognition of his achievements and in appreciation for his contribution to the sport, the Pikes Peak Snowmobile Club, the Mile High Snowmobile Club of Denver, and the Gates Rubber Company Snow Tracks Club each presented Shiftlet with honorary memberships.

Daily reports followed Shiftlet from the time the shiny red Chaparral left Port Authority New York City, with Mayor Lindsay's aide expressing wishes for their success, until it cruised up to the State Capitol steps at Sacramento, Calif. for official welcoming ceremonies there.

A spectacular celebration with a huge banner announcing, "Welcome Tom Shiftlet, First Cross Country Snowmobile Trip NY to SF" greeted Tom and the Chaparral machine on Fisherman's Wharf. Pretty Susan Walsh, Miss San Francisco, presented Tom with a plaque memorializing the several world's records established during the course of the trip. These records were world's record snowmobile trip of 3,931 miles, longest snowmobile trip in one day of 738 miles, and the first snowmobile to conquer Pikes Peak.

The superb performance of the Chaparral snowmobile and the modest demeanor of the man who drove it successfully from coast to coast focused favorable nationwide attention upon snowmobiles and the quality of character exhibited by those involved in the industry and in the sport.

Jeep Cuts Prices

Retail prices on the famed "JEEP" Universal equipped with a V-6 engine have been cut \$93 for 1971, Bill Scheer, president of Scheer Motors, Inc. has announced.

Prices on "JEEP" Gladiator pickup trucks also are lower, with the J-2500 model price reduced by \$110, he said.

"This aggressive price action represents a major move by American Motors to strengthen its position in the recreational and four-wheel drive markets," Mr. Scheer said.

The \$93 price reduction on the CJ-5 "JEEP" Universal applies to models powered by the V-6 225 CID engine, which account for about 80 per cent of Universal sales. This standard CJ-5 model with four-cylinder engine has been increased by only \$13 for 1971.

Modest price increases on other models in the "JEEP" line are considerably less than 1971-model boosts announced by other motor vehicle manufacturers, Mr. Scheer noted.

Attend The Church Of Your Choice

He makes a marvelous picture—but would he really make a marvelous chef? Can you imagine what might happen if you let him brew up a pot of everything his chubby little fingers could latch onto?

Let's face it! It takes thought, direction and planning to do anything well in life — even to make a good stew. Though a true chef may not follow the cookbook precisely, he will select and blend his ingredients with care and precision. Only then will the dish be a success.

What does all this have to do with going to church? More than you might think! If you have been leaving the Church out of your recipe for living, you have been missing some of life's most priceless ingredients — God's love, His priceless gift of Faith and some of the greatest lessons ever revealed to man.

10th District Navy Information Officer

"Our job is to seek out the best. After all, the Naval Academy has a well-earned reputation for excellence. The midshipmen of today will be the naval leaders of the future."

This is how Lieutenant Commander Arthur R. Thayer (U.S. Naval Reserve) of Grayling summarizes his responsibility as a Naval Academy Information Officer in the 10th Congressional District.

Thayer, 408 Plum Street an Elementary Principal with Crawford AuSable Schools, is one of a Michigan team known informally as Blue and Gold Officers. These volunteers counsel young men of exceptional potential to prepare for careers in the naval service through the U. S. Naval Academy.

The team's current goal is to have at least 80 young men from the entire state in the plebe class entering Annapolis in 1971.

Michigan Blue and Gold Officers met recently with the Naval Academy's Director of Recruitment and Candidate Guidance, Captain Robert E. Brady. The meeting in Saginaw helped provide the officers and interested members of the community with the latest information from Annapolis.

Young men interested in applying for the Naval Academy should contact Thayer for further information.

Gen-Tel Plans \$5.5 Million Improvement

Record service improvement and expansion expenditures exceeding \$5.5 million are planned for 1971 by General Telephone for its northern Michigan service area according to E. W. Lankheet, northern division manager for the company. Lankheet said the program includes improvement and expansion of both long distance and local service in all five of the districts included in his division.

The five districts, which include 36 exchanges, are headquartered at Alpena, Gaylord, Manistique, Pickford and Roscommon. The Upper Peninsula districts include eight exchanges.

It will be the second consecutive year the company has spent over \$5 million for service improvement and expansion in the northern Michigan area. In the past five years, the company has spent over \$20 million in northern Michigan.

"Major projects to expand local and long distance service and provide for service improvement and exchange growth in 1971 will require a substantial portion of the \$5.5 million program," Lankheet said.

Relatively smaller projects to meet 1971 growth requirements within the division will cost \$2,104,000, Lankheet added.

These projects include primarily telephones and related apparatus and limited extensions of outside plant. Building additions within the division include a new division office at Alpena and a new district office at Gaylord.

"The northern division is one of the fastest growing of the company's five divisions," Lankheet said. "Our total calling volume has reached over 51,836,000 calls during the first seven months of this year — up over eight percent — and our long distance volume is up over fifteen percent."

The 1971 improvement and expansion program represents an average additional investment of over \$102 for each of the more than 54,273 telephones in the northern division. The division, with 307 employees, has a total capital investment of over \$40,455,000 in land, buildings and equipment, or over \$745 for each telephone in service.

General Telephone has more than 438,000 telephones in service in 486 Michigan communities. The company operates in 61 of the state's 83 counties.

In the Grayling area, the company plans additional pole lines and local service cable to provide for some reduction in parties per line in both the urban and rural areas, with additional long distance circuits to the Skyline switching center near Grayling, at an expected expenditure of \$9,000.

Friends and family from Grayling, Frederic, Roscommon, Alpena, Gladwin, St. Helen, Tawas City, Bay City, Trenton, Warren and Detroit all came to wish their best. The highlight of the day came when Bonnie and Barton re-spoke their vows with Judge Emil Kraus in attendance. Judge Kraus' father had originally joined them in marriage. School Assn. Meeting Held

At the Crawford AuSable School Association (Grayling Elementary Division) meeting, there seemed to be some confusion about the new state law which states that each school district must furnish all supplies which are needed for school. In other words, the schools can no longer send home requesting parents to subscribe to periodicals, buy crayons, paper or anything else. This is the reason that there is a fund-raising project to buy a subscription to the Weekly Reader for every elementary student.

We, in Crawford County, want something better than the bare essentials for our children. Our next meeting will be held at the Grayling Elementary School on November 12th at 7:30 p.m. All parents, teachers and other interested persons are invited to attend.

Officers of the Grayling Elementary Division, Crawford AuSable School Assn.

SILVER TOPS

The Silver Tops will hold their November meeting at the Elementary School on November 10 beginning with a pot luck dinner at 6:30 p.m. There will be special entertainment provided by Howard Taylor and the Grayling High School Choralaires.

We would like to have everyone bring a couple cans of eatable food, such as fruit, vegetable, soup, etc., to be used for baskets for the needy for Thanksgiving.

Everyone come and bring a friend.
